Experience

Software Engineer – Gannett, Urbana

May '18 – present

- Manage Gannett's CDN layer which is responsible for all 120+ website Gannett owns, including USATODAY.com
- Maintain Gannett's API Gateway layer through Apigee
- Develop Go Applications for internal customers (slackbots, management apis, automation tools, etc)
- Orchestrate migration of our apps to Helm/Kubernetes
- Support the security team for internal audits
- Migrate our Jenkins CI from a scripted pipeline to a declarative pipeline
- Engage with external vendors like CDN and API gateway providers

Software Engineer – Agribile, Champaign

October '15 – May 2018

- Developed Python code for our services hosted on AWS leveraging technologies like Kinesis, Firehose, Redshift, and Lambda
- Developed internal tools for managing workflows and scheduling jobs
- Participated in daily standups, sprint planning and intern management.

Teaching Assistant – University of Illinois, Urbana

August '14 – December '15

ECE 220, Computer Systems and Programming

- Taught lab sections twice a week and taught lectures when professor was absent.

Systems Intern – State Farm Research and Development Center, Champaign

May '14 – August '14

- Developed a computer vision project using OpenCV and Xbox Kinect to detect and track unsafe driving behaviors. This project was open sourced to a Kaggle competition, *State Farm Distracted Driver Detection*, for a \$65,000 prize – <https://www.kaggle.com/c/state-farm-distracted-driver-detection>

Accelerator Control Intern – Fermilab, Batavia

May '13 – Aug '13

- Created a replacement for a legacy application that was used to manage thousands of hardware instruments throughout Fermilab's campus.

Education

University of Illinois, Electrical and Computer Engineering, Urbana, IL

August '13 – December '15

Bachelor of Science in Computer Engineering

- Member of ACM-SIG Music and ACM-SIG Computer Human Interaction
- GPA: 3.11/4.0

Parkland College, Urbana, IL

December '12 – May '13

Associate of Science in Electrical Engineering Sciences and Computer Science

- GPA: 3.61/4.0
- Awards: Dean's List, Walter H. Miller Scholarship, Heartland Bank Scholarship, UIUC's Employee Scholarship

Projects

GitLeaks – github.com/zricethezav/gitleaks

- Tool to search Git repos for leaked API keys and secrets using regex and entropy
- 4.4k stars on Github
- Active community and lots of contributors

Others – github.com/zricethezav

- whatSpeed - Download and upload speed checker written in Go
- h1domain - OSINT script to gather all in scope domains for hackerone bounties

Skills

Languages: Go, C, Python, VCL, Bash, C++, Haskell, Java, x86, CUDA, PostgreSQL, LATEX, Groovy, \LaTeX

Technologies: Jenkins, Fastly, Apigee, GCP, AWS, Kubernetes, Helm, Docker, Django, Flask, Redis, Postgres, Elastic-Search, Celery, Heroku, Vagrant, Wireshark, BurpSuite, Selenium, Vim
